

CAPABILITY STATEMENT

Core Competencies

Rhea Health LLC provides Occupational Health (OHS) services to agencies, companies and organizations in Oklahoma. We provide our customers with a comprehensive “one-stop” solution including:

- Physical exams, physical abilities testing, drug testing and other new hire exams and tests.
- Periodic exams and testing including OSHA surveillance and DOT compliance.
- Drug and alcohol-free workplace including testing, program administration and training.
- Comprehensive respiratory protection - PFT, fit testing, B reader, medical clearance and training.
- Hearing protection and audiometric testing.
- Vaccination and public health initiatives.

Over 15 years experience providing services to thousands of Oklahoma agencies, companies and organizations.

Past Performance

- Federal security agencies. Occupational health services for multiple agencies. Subcontract to QTC Medical Group.
- Will Rogers Airport security. Occupational health services for airport security workers. Subcontract to DFW Security Protective Force.
- State of Oklahoma respiratory protection. Services provided throughout the state to protect vulnerable populations. Prime contractor.
- Tinker firefighters respiratory protection. After hours fit testing. AFRC 507.
- Occupational health services to air logistics and air travel companies at major OK airports.

Differentiators

- Comprehensive occupational health services. Service packages can be delivered to address all customer requirements through one provider.
- Flexible collaboration. Prime contractor and subcontract for federal, state and local agencies. We work with most nationwide OHS networks and are a preferred partner with many.
- Anywhere services. All services can be delivered at our clinic, your site or remote locations.
- 24/7/365 after-hours scheduling or quick response.
- Worker satisfaction and reduced downtime. One worker visit for all needed services, quick visit turnaround, same day results and after-hours scheduling.
